## **FRONT END DEVELOPER**

Use your extensive knowledge to improve the user experience of the Octo platform. You will work with real-time data streams and delight people by making the best software we can imagine. You will collaborate closely with Product, Design, Application Engineering, and QA to spec, build, test and deploy new features.

This position is based in the Hague

### **You can...**

- Solve problems in a fast-paced, technical environment.
- Transform large, complex data sets into pragmatic, actionable insights.
- Write understandable, testable code with an eye towards maintainability.
- Challenge ideas and methods while working together with talented, highly skilled team members.
- Get excited from new technologies, adapt quickly and take ownership of your work.

### **Your skills**

- Bachelor's degree required
- 2+ years work experience
- Strong User Experience and graphic Skills
- Mendix, CSS, SAS and Javascript are a pre.

### **The offer**

- Excellent working conditions with a good salary
- The possibility for growth
- A great team to work in
- Room for learning

## About Octo

OCTO is more than just a tech company. We're on a mission to make buildings healthy, safe and comfortable. We're a team of 12 entrepreneurial people. Empathy, Ownership, Craftsmanship, Playfulness, Solidarity and Entrepreneurship. These are some of the core values we live by, as a company. We work by them too! We're building a platform and products we believe in. Knowing there is real value to be gained from digitalizing buildings. If you believe that as well, we're looking for you!
